REMARK

As requested by the applicant, only components shown in this report were screened by XRF spectroscopy for RoHS Directive 2011/65/EU and Directive 2015/863 Annex II (amendment). Other components were not screened in this report. Chemical confirmation tests were conducted to verify the inconclusive results of XRF tests. Determination of total value of regulated substances in electro technical products, elements of cadmium (Cd), lead (Pb), mercury (Hg), chromium (Cr) and bromine (Br) content were measured by XRF spectroscopy for RoHS restricted substances. The analyser is therefore unable to determine if it is PBB, PBDE, Cr(VI) or non-restricted bromine and chromium substances in the sample. And review was performed for the samples disjointed from the submitted samples and the related test reports provided by the applicant.
